CHINMINGS

The so-called "pull up." It's a simple exercise one can easily do anywhere, even outside the gym, if there's a place to hang a bar.

*MAKE SURE THE AREA ITSELF IS SAFE

This time, we'll introduce you to the orthodox chinning method.

NARROW

WIDE

SUPINE GRIP (OVERHAND)

PRONATE GRIP (UNDERHAND)

There are multiple variations of chinings, so the muscles [trained] will also vary depending on method.

Cross your ankles behind your buttocks.

Your hands should be slightly wider than shoulder-width.

Grasp the bar overhanded and suspend yourself.
